MAKERS MOTION

Jordan Yambao

About Me:

- I AM A JUNIOR MAJORING IN MECHANICAL ENGINEERING.
- THIS IS MY SECOND YEAR IN MAKERS.
- FROM LA, CALIFORNIA
- HOBBIES: DRAWING, BOXING, ACTING, WORKING OUT, GOING TO THE BEACH, AND GOING TO THEME PARKS
- I LOVE MAKERS!

Inspiration

- I LOVEEEEEE ROLLER COASTERS!
- VR ROLLER COASTER ARCADE GAMES
- INTERACTIVE PROJECT

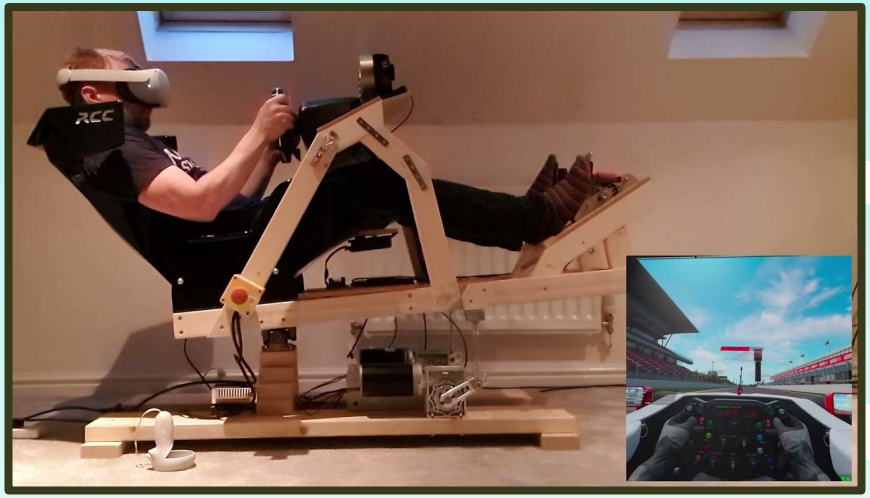

Project:

- MAKERSMOTION WOULD BE A VR ROLLER COASTER SIMULATION.
- AN IMMERSIVE RIDE EXPERIENCE USING A MOTORIZED CHAIR.
- COMBINED WITH A HEADSET THAT DISPLAYS A VR VIDEO OF A ROLLER COASTER THAT IS SYNCED TO THE MOTION OF THE CHAIR.

Timeline:

Fall Semester/Showcase:

- Focus on physicality of the project
- Create motion rig using combination of wood, steel frames, and possibly 3D printed parts
- The base of the project is done.
- Start to work on wiring and electrical work.

Spring Semester/Showcase:

- Focus on how the base will move.
- Heavy on electrical and software components.
- Test out VR and sync it with the motion of chair.

Subteams:

Mechanical Team:

- CAD model of system
- Mechanical design
  - Frame
  - Pivot points, U-joint
- Load test of motors

Electrical Team:

- Motor control
- Arduino, sensors, wiring
- Movement of rig

Software Team:

- Python code
- VR sync
- Work heavily with electrical team

Why join my team?

- CAUSE IM FUN DUHHHH.
- INVOLVE EVERYONE AND WE'RE ALL LEARNING TOGETHER.
- YOU HAVE CONTROL OF WHAT PATHWAY YOU WANT OUR PROJECT TO FOLLOW.
- BE FWIENDS.
- HANGOUT OUTSIDE OF GM (DINNERS/STUDYING/WORKING ON PROJECT/THEME PARKS)
